

# May

## "Smarties"

May is here and where are the flowers? This month we are going to be learning about "Things that Move." Our first week we will concentrate on I move, then moving on to week two we will learn about travel, traveling on week three where we will learn about transportation and ending with week four with mysterious movers. This month we will also celebrate mothers and everything they do for us with a mommy and me craft day, on May 14, 2021 at 10:00am. Please bring a jar lid from pickles or something in that nature.

## "Lollipops"

We will be learning about Gardening, Mother's Day, Community Helpers, & Practical Life Skills. We will learn how things grow in garden and how to take care of them. How to complete household daily living activities like sweeping, folding and placesetting. We will learn who our community helpers are & how we can help them do a good job & lots of art/language skills for our mother's day unit.

## "Gummy Bears"

**Happy May!** As the month warms we will be spending a lot of time outside and exploring more of nature such as bugs, animals and plants. We will be growing our own plants as well as watch butterflies grow. We will also be learning about life cycles of different animals. We will be focusing on learning through songs and stories.

## "Gumdrops"

April showers bring MAY flowers. This month we will be working on the color yellow and learning about all the different types of flowers. We will be spending a lot of time outside and we hope to get some water play in this month. As always, I love working with your children and can't wait to see what this month brings.
