

August

class newsletter

“Summer Camp”

Summer Camp has been Fantastic & we are excited to finish the summer with a few more fun things to do.

We will be having Water Play on Wednesday, a Science Day, Balloon Activities, Game Day, Baking Day & Glow in the Dark Fun Day. We are planning a Field Trip to Reptile Gardens & Jimmy Hilton Pool.

“Smarties”

Oh my, where has summer gone? August is the month to learn about back to school & what to expect as most of the class enters kindergarten this fall...After school starts we will be focusing on our class rules and our different centers in the room.

“Lollipops”

This month will be the last month of water play for the kiddos as we head into the school year. Many of you have already met her, but our new teacher Miss Lillia started with us last week! She has worked in childcare previously and the kiddos already love her! She will begin to take over the room as I'll be back around the beginning or middle of November.

“Gummy Bears” and “Gumdrops”

Happy August! This month we will be learning all about orange. The kids have had such a great time with water days and we hope to have a few more before the summer end. Have a great August!
